

RunBattle::ExecAttack

```
graph LR; A[RunBattle::ExecAttack] --> B[RunBattle::ExecChangeStance]; A --> C[RunBattle::UpdateCards];
```

The diagram illustrates a control flow from a function named `RunBattle::ExecAttack` to two other functions. The `RunBattle::ExecAttack` node is a gray rectangle on the left. Two blue arrows originate from its right side: the top arrow points to the `RunBattle::ExecChangeStance` node, and the bottom arrow points to the `RunBattle::UpdateCards` node. Both target nodes are white rectangles.
